of MEDICINE

MEDICAL PARENTS ORIENTATION

Congratulations on your child's admission to the University of Miami Miller School of Medicine Class of 2013! As medical student parents, we know what an exciting and proud time this is for you.

The Medical Parents Association (MPA) is a multi-faceted volunteer organization that serves as a liaison to the faculty and administration representing medical students, their parents, and families. Each year we invite all incoming freshman and their families to join us for Medical Parents Orientation which offers:

- the opportunity to meet the medical school deans,
- an overview of what the next four years will hold for our medical students,
- and insight into the Medical Parents Association as an organization.
