

Module: Introduction to Human Structure, Function and Behavior

Week of: 8/13/01

	8/13/01	8/14/01	8/15/01	8/16/01	8/17/01
8:00					
9:00	Introduction to: Common Features of Cells	Introduction to: Circulation Gas Exchange	Introduction to: Motion Sensation	Introduction to: Energy Metabolism	Introduction to: Cellular Defense Mechanisms
10:00	Genomics	Fluid & Electrolyte Homeostasis	Cognition	Endocrinology	Immunology
11:00	Reproduction Life Cycle (Muench)	(O'Connell)	Special Senses (Potter)	(Taylor)	Tissue Injury & Repair (Riley, Caswell, Levi)
12:00					
1:00	Scientific Basis of Medicine (Magleby)	Evidence-Based Medicine (O'Connell)	History of Health Care in America (Materson)	Health Care in South Florida (Materson)	The Medical History + Physical Examination (Sosenko)
2:00	21st Century Competency (O'Connell)	Medical Library Science Information Access (Burrows)	How Health Care Works (Materson)	Buying Health Insurance (Hernandez, O'Connell)	Health Care Teams (Flipse)
	Longitudinal Themes (Faculty)				
3:00	The Profession of Medicine (Flipse)	Intro to MEDLINE (Moore)	Physicians and Information Technology (O'Connell, Students)	Quality in Health Care (Omachanu)	Geriatrics (Granville)
4:00	Matriculating Student Questionnaire (Self-Study)	Matriculating Student Questionnaire (Self-Study)	Matriculating Student Questionnaire (Self-Study)	Matriculating Student Questionnaire (Self-Study)	Student-Faculty Mixer RSMAS 6:30pm

work

Modified: 8/13/01

Module: Molecular Basis of Genetics and Early Development

Week of: 8/20/01

	8/20/01	8/21/01	8/22/01	8/23/01	8/24/01
8:00					
9:00	Quiz Intro Human Structure, Fxn, Behavior	Cytoskeleton, Junctions and Cell Motility	Growth Control and Cell Cycle	Intro to Embryology First two weeks of embryonic development	Organizers, Inducers, Embryonic Axis, and Somites
10:00	Introduction to Cell Membranes and Membrane -Limited Organelles	Signal Transduction	The Cell Cycle & Apoptosis	Gastrulation and Development of Body Form	
11:00	Protein Synthesis, processing & transport: Endocytosis	Introduction to the Medical Interview LT	Cell Biology Discussion and Review	Development of Pharynx	Embryology Discussion and Review
12:00					
1:00	Role, Need, and Goals, Genetics in Medicine	EBM	Structure and Function, DNA and Chromosomes	Interviewing	Meiosis and Fertilization, Normal and Abnormal
2:00					Gross Anatomy
3:00		Interviewing		EBM	Introduction to Dissection
4:00		LT		LT	

Modified: 8/15/01

Module: Human Structure

Week of: 8/27/01

	8/27/01	8/28/01	8/29/01	8/30/01	8/31/01
8:00					
9:00	Autosomal Aneuploidy	Histology Lecture Connective Tissue	Chromosome Structure Phenomona	Histology Lecture Cartilage	Mutations That Grow
10:00		Histology Laboratory			
11:00	Histology Lecture Epithelium	Epithelium, Connective Tissue	Histology Lecture Skin	Histology Laboratory Skin, Cartilage	Histology Lecture Respiratory System
12:00					
1:00					
2:00	Gross Anatomy	EBM	Gross Anatomy	Interviewing	Gross Anatomy
3:00	Back Spinal Cord	Interviewing	Thoracic Wall, Lungs and Pleura	EBM	Middle Mediastinum
4:00		LT		LT	

Modified: 8/15/01

Module: Human Structure

Week of: 9/3/01

	9/3/01	9/4/01	9/5/01	9/6/01	9/7/01
8:00	LABOR DAY HOLIDAY				
9:00		Human Structure Quiz Embryology, Cell Biology, Histology, Anatomy	Mendelian Inheritance: Autosomal Dominant Mode	Histology Lecture Nerve	Porphyrias: Then and Now
10:00				Histology Lecture Muscle	
11:00	Human History in Mitochondrial DNA	Histology Laboratory Respiratory System	Histology Laboratory Nerve, Muscle	Histology Laboratory con't Nerve, Muscle	
12:00					
1:00	LABOR DAY HOLIDAY	Gross Anatomy	Gross Anatomy	EBM	Gross Anatomy
2:00					
3:00				Posterior Mediastinum, Superior Mediastinum, Autonomics	
4:00			LT		

Modified: 8/15/01

Module: Human Structure

Week of: 9/10/01

	9/10/01	9/11/01	9/12/01	9/13/01	9/14/01				
8:00									
9:00	Gene Dosage and Genetic Fitness	Histology Laboratory Cardiovascular System	Structural Phenotypes: Marfan Syndrome, Achondroplasia	Histology Laboratory GI Tract, Salivary Glands, Pancreas	Multiple Genetic Issues in Huntington Disease				
10:00									
11:00	Histology Lecture Cardiovascular System		Histology Lecture GI Tract, Salivary Glands		Histology Laboratory Review				
12:00									
1:00	Gross Anatomy Abdominal Organs, Peritoneal Cavity, Mesenteries	EBM Interviewing LT	Gross Anatomy Celiac Trunk, Mesenteric Vessels, Portal System LT	Interviewing EBM	Gross Anatomy Gastrointestinal Tract, Paired Organs				
2:00									
3:00									
4:00									

Modified: 8/15/01

Module: Human Structure

Week of: 9/17/01

	9/17/01	9/18/01	9/19/01	9/20/01	9/21/01		
8:00							
9:00	Human Structure Quiz Anatomy, Histology	Histology Lecture Liver, Gallbladder	Multiple Genetic Issues In Cystic Fibrosis	Histology Laboratory	Carrier Selection and Other Aspects of Hardy-Weinberg Law		
10:00		Histology Laboratory Liver, Gall Bladder				Histology Lecture Bone and Bone Formation	Bone and Bone Formation
11:00	Mendelian Inheritance: Autosomal Recessive Mode						
12:00							
1:00	Gross Anatomy Posterior Abdominal Wall, Lumbar Plexus	Cardiovascular Exam	Gross Anatomy Pelvic Diaphragm, Pelvic Floor	Teams (SG)	Gross Anatomy Anal Triangle, External Genetalia, Ischiorectal Fossa		
2:00		Clinical Skills		LT		Clinical Skills	
3:00				LT			LT
4:00							

Modified: 8/15/01

Module: Human Structure

Week of: 9/24/01

	9/24/01	9/25/01	9/26/01	9/27/01	9/28/01
8:00				Y.K.	
9:00	Significance of Subpopulations: Consanguinity, Race and Incest	Mendelian Inheritance: X-Linked Recessive Mode	Mendelian Inheritance: X-Linked Dominant Mode	IS	IS
10:00					
11:00	Histology Laboratory Urinary System	Histology Lecture Lymphoid Tissue	Histology Laboratory Review		
12:00					
1:00	Gross Anatomy Pelvic Organs	Histology Laboratory Lymphoid Tissue	Gross Anatomy Pelvic Vessels, Pelvic Nerves	IS	Final Examination Gross Anatomy
2:00					
3:00					
4:00					

off

Module: Molecular Basis of Genetics and Early Development

Week of: 10/1/01

	10/1/01	10/2/01	10/3/01	10/4/01	10/5/01
8:00					off
8:30	Final Examination				
9:00		Mutation, DNA Damage, Repair and Genetic Recombination	RNA Synthesis	Regulation of Gene Expression Prokaryocytes	Regulation of Gene Expression Eukaryocytes
10:00		Amino Acids and the Peptide Bond	RNA Processing	Protein Processing	Protein Synthesis
11:00	Histology (Bring Microscopes)	Pulmonary Exam	Protein Structure and Folding	Enzyme Catalysis	Review
12:00		LT			
1:00	Flow of Genetic Info, Nucleic Acid Structure	Clinical Skills	Sexual Differentiation and Development	Clinical Skills	DNA Profiling, Disputed Parentage
2:00	DNA Replication				
3:00	Introduction to Amino Acids & Proteins				
4:00		LT		LT	

Module: Molecular Basis of Genetics and Metabolism

Week of: 10/8/01

	10/8/01	10/9/01	10/10/01	10/11/01	10/12/01
8:00	Columbus Day				
9:00	Genome Organization, Chromosome Structure	Recombinant DNA II	Nucleotide Metabolism, Gout	Introduction to Metabolism	Glycolysis
10:00	Recombinant DNA I	Enzyme Inhibition	Enzyme Regulation	Diet and Metabolism	Catabolism of Fats
11:00	Characterizing the Rates of Enzyme Reactions	Professionalism LT	Review	Digestion and Assimilation of Foodstuffs	Amino Acid Catabolism - Nitrogen Metabolism
12:00					
1:00	Cancer and Somatic Cell Genetics	Clinical Skills	Polygenic Multifactorial Disorders	Clinical Skills	Genetics in Medical Practice
2:00					
3:00					
4:00		LT		LT	

work

Module: Molecular Basis of Metabolism

Week of: 10/15/01

	10/15/01	10/16/01	10/17/01	10/18/01	10/19/01
8:00					
9:00	Final Examination Genetics	Oxidative Phosphorylation The Terminus of Catabolism	Carbohydrate: The Most Versatile Component of the Diet	Complex Lipids	Amino Acid Catabolism - Carbon
10:00		Pentose Phosphate Pathway, Gluconeogenesis	Synthesis of Fatty Acids	Glycogen, the Body's Store of Glucose	Integration of Metabolism
11:00		Abdominal Exam LT	Synthesis, Mobilization of Cholesterol	Hormonal Regulation of Metabolism	Review
12:00					
1:00	The Citric Acid cycle, The Hub of Metabolism	Clinical Skills	Review	Clinical Skills	
2:00	Ketogenesis: Synthesis of Ketone Bodies in Diabetes and Starvation				
3:00					
4:00		LT		LT	

Modified: 09/24/2001 ae

Module: Cellular Physiology and Biophysics

Week of: 10/22/01

	10/22/01	10/23/01	10/24/01	10/25/01	10/26/01
8:00					
9:00	Final Examination Biochemistry	Membrane Potentials	Resting Potential SG	Action Potential - I	Action Potential (SG)
10:00		Resting Potential		Meet Faculty	
11:00		LT	Passive Propagation	Action Potential Demo	Cell-Cell Channels
12:00					
1:00	Introduction	Clinical Skills		Clinical Skills	Skeletal Muscle
2:00	Membranes Electrical Properties		Generator Potentials		Smooth Muscle
3:00			Pumps Transport		
4:00		LT		LT	

Modified: 10/18/01 ae

Module: Cellular Physiology and Biophysics

Week of: 10/29/01

	10/29/01	10/30/01	10/31/01	11/1/01	11/2/01
8:00					off
9:00	Original Literature SG	Synaptic Transmission I	Synaptic Chemistry I	Axonal Transport	Final Examination Physiology
10:00	Cardiac Muscle	Synaptic Transmission II	Synaptic Chemistry II	Physiology Summary and Review	
11:00	Other Action Potentials	Head and Neck Exam LT	Osmolarity,		
12:00					
1:00	Skeletal Muscle Laboratory	Clinical Skills	Skeletal Muscle Laboratory	IS	Clinical Skills
2:00					
3:00					
4:00		LT		LT	

Modified: 09/24/01 ae

Module: Immunobiology and Pathology

Week of: 11/5/01

	11/5/01	11/6/01	11/7/01	11/8/01	11/9/01
8:00			Pathology Review		Pathology Review
9:00	The Immune Apparatus: Cell Types and Clonal Selection Theory	Immunoglobulins	Antigens Presentation	T-Cell Activation	B-Cell Function and Memory
10:00	Immunogens, Antigens and Lymphocytes Receptor	Immunoglobulins/TCR	T-Cell Ag Recognition (I)	T Lymphopoiesis	Complement
11:00	Antigen-Antibody Interactions	MHC Gene/Proteins	T-Cell Ag Recognition (II)	B Lymphopoiesis	Antibody Mediated Immunity (I)
12:00					
1:00	Cell Injury and Adaptation Lecture	Cell Injury and Death Lecture	Inflammation (I) Lecture	Inflammation (II) Lecture	Neoplasia (I) Lecture
2:00	Cell Injury and Adaptation Lecture	Cell Injury and Death Lecture	Inflammation (I) Lecture	Inflammation (II) Lecture	Neoplasia (II) Lecture
3:00	Forensic Vignettes	Forensic Vignettes	Forensic Vignettes	Forensic Vignettes	
3:00	Microscopic Slide Session	Microscopic Slide Session	Microscopic Slide Session	Microscopic Slide Session	Microscopic Slide Session
4:00	Gross Organ	Gross Organ	Gross Organ	Gross Organ	Gross Organ

Modified: 10/23/01 ae

Module: Immunobiology and Pathology

Week of: 11/12/01

	11/12/01	11/13/01	11/14/01	11/15/01	11/16/01
8:00		Pathology Review			
9:00	Immunology Pathology Quiz	T-Cell Mediated Immunity (DTH)	Cytotoxicity (II)	Immune Deficiency	Final Examination Immunology
10:00	Antibody Mediated Immunity (II)	Cytotoxicity (I)	Immune Regulation	Transplantation	
11:00	Inflammation	Head and Neck Exam LT	Tolerance	Immune Suppression Pharmacologic Mechanisms	
12:00					
1:00	Neoplasia (III) Lecture	Clinical Skills	Final Examination Pathology	IS	Clinical Skills
2:00	Microscopic Slide Session				
3:00					
4:00	Gross Organ LT				

off

Module: Molecular Basis of Pharmacology

Week of: 11/19/01

	11/19/01	11/20/01	11/21/01	11/22/01	11/23/01
8:00				Thanksgiving Holiday	Thanksgiving Holiday
9:00	Introduction to Pharmacology	Pharmacodynamics I	Drug Elimination and Metabolism		
10:00	Pharmacokinetics I	Pharmacodynamics II	Ethanol, Methanol		
11:00	Pharmacokinetics II	Physical Exam Complete LT	Pharmacogenomics		
12:00					
1:00	Discussion (SG)	Clinical Skills	Problem Session Workshop (SG)	Thanksgiving Holiday	Thanksgiving Holiday
2:00					
3:00					
4:00		LT			

off

Module: Molecular Basis of Pharmacology

Week of: 11/26/01

	11/26/01	11/27/01	11/28/01	11/29/01	11/30/01
8:00					
9:00	Drug Targets I Channels, Transporters	Autonomics I Distribution of Receptors	Autonomics III Adrenergic	Inflammation, Signalling in the Immune System	Histamine and Allergy
10:00	Drug Targets II G Protein Coupled Receptors	Autonomics II Adrenergic	Autonomics IV Cholinergic	Non-Steroidal Anti-Inflammatory Drugs	Pediatric Pharmacology
11:00	Drug Targets III Steroid Receptors	Geriatrics LT	Autonomics V Cholinergic	Corticosteroids	Geriatric Pharmacology
12:00					
1:00	Discussion of paper (SG)	Geriatrics	Review of Autonomics (SG)	Geriatrics	OTC's, Herbs, Nutrition, Food, Prescriptions, Drug Development
2:00					
3:00					
4:00		LT		LT	

work

Module: Microbiology and Infectious Disease

Week of: 12/3/01

	12/3/01	12/4/01	12/5/01	12/6/01	12/7/01
8:00					
9:00	Final Examination Pharmacology	Genetics of Microbial Pathogenesis	Gram Negative Bacteria	Gram Positive Bacteria	Anaerobes
10:00		Innate and Adaptive Responses to Pathogens			Spirochetes, Mycoplasma
11:00	Pharm Exam Review	Medical Microbial Ecology and Transmission		Antibiotics I	Obligate Intracellular Chamydia, Rickettsia Borrelia
12:00					
1:00	Introduction to Microbiology/ID,	Geriatrics	Sepsis and Septic Shock	Geriatrics	Sexually Transmitted Diseases
2:00	General Principles of Bacterial Physiology and Structure,		Enteric Fever and Diarrhea		Antibiotics II
3:00	Mechanisms of Microbial Pathogenicity				
4:00		LT		LT	

Modified: 10/1601 ae

Module: Microbiology and Infectious Disease

Week of: 12/10/01

	12/10/01	12/11/01	12/12/01	12/13/01	12/14/01
8:00					
9:00	Mycobacteria	Microbiology/ID Quiz Bacteriology	Medical Mycology	Helminths Nematodes	Viral Classifications
10:00	Clinical Spectrum of Tuberculosis				Pathogenesis of Viral Disease
11:00	Geography and Infectious Disease	Neurological Exam LT	Introduction to Parasitology	Malaria, Intestinal Parasites	Viral RNA Replication
12:00					
1:00	Clinical Skills	Clinical Skills LT	Protozoal Infections of Blood and Tissues	Clinical Skills LT	Viral DNA Replication
2:00					POPS Methodology
3:00					
4:00					

Modified: 10/16/01 ae

Module: Microbiology and Infectious Disease

Week of: 12/17/01

	12/17/01	12/18/01	12/19/01	12/20/01	12/21/01
8:00					IS
9:00	Picoma, Reo Orthomyxo, Paramyoviruses	Parvo, Adeno & Papoviruses	Retroviruses	Antiviral Agents	
10:00		Herpes & Poxviruses	HIV Infection	Immunizations	
11:00	Viral exanths	Teams and Leadership LT	Complications of HIV Infection	POPS III (SG)	
12:00					
1:00	POPS I (SG)	Clinical Skills	POPS II (SG)	Clinical Skills	Final Examination Microbiology/ID
2:00					
3:00					
4:00		LT		LT	

Modified: 10/16/01 ae

Module Neurosciences and Behavioral Medicine

Week of: 1/7/02

	1/7/02	1/8/02	1/9/02	1/10/02	1/11/02
8:00					
9:00	Gross structure of the Nervous System	Introduction to Imaging the Nervous System	Development Plasticity	Response to Injury	Normal childhood Development
10:00	Histology of the Nervous System	Gross brain Focal Lesions (SG)	Congenital Malformations	Genetic and Congenital Disorders	Normal childhood Development
11:00	Embryology of the Nervous System		Epidemiology LI	(SG)	Normal Adolescent Development
12:00					
1:00	Gross Anatomy Face, Facial Nerve, Scalp and Parotid Gland	International Health	Epidemiology or IS	Epidemiology or IS	Epidemiology or IS
2:00		LT			
3:00					
4:00			LT	LT	LT

Modified: 10/22/01 ae

Module: Neurosciences and Behavioral Medicine

Week of: 1/14/02

	1/14/02	1/15/02	1/16/02	1/17/02	1/18/02
8:00					
9:00	Autism	Adult Development	Stress and General Adaptation Response	Language and Cortical Function I	Higher Cortical Function II
10:00	Adult Development	Problem Solving in Normal and Abnormal Development (SG)	Neuroanatomy of the Cerebrum	Cortical Dysfunction Syndromes (SG)	Learning and Memory
11:00	Adult Development		Interviewing Clinical Skills LT		Synaptic Transmission
12:00					
1:00	Gross Anatomy Cranial Nerves and Skull	Poverty	Clinical Skills or IS	Clinical Skills or IS	Clinical Skills or IS
2:00		Mentor SG			
3:00					
4:00					

Modified: 10/22/01 ae

Module: Neurosciences and Behavioral Medicine

Week of: 1/21/02

	1/21/02	1/22/02	1/23/02	1/24/02	1/25/02
8:00	MARTIN LUTHER KING DAY				
9:00		Pharmacology of Neuromuscular Junctions	Muscle Pathology Myopathy	Spinal Cord Pathways (sensory and motor)	CNS Growth Factors
10:00		Neuromuscular Junction: Lambert-Eaton, Myasthenia Gravis (SG)		Corticospinal, Corticobulbar Tracts, Cerebellum	Review of Spinal Cord
11:00			Epidemiology LT	Spinocerebellar Tracts, Lower and Upper Motor Neurons	Disorders of the Spinal Cord
12:00					
1:00	MARTIN LUTHER KING DAY	Children's Health Mentor SG	Professionalism or IS	Professionalism or IS	Professionalism or IS
2:00		LT			
3:00					
4:00					

Modified: 10/22/01 ae

Module: Neurosciences and Behavioral Medicine

Week of: 1/28/02

	1/28/02	1/29/02	1/30/02	1/31/02	2/1/02
8:00					
9:00	Mechanisms of Spinal Cord Injury and Repair	Voluntary Movement	Ataxia and Cerebellar Syndromes	Anatomy of Basal Ganglia	Parkinson's and Huntington's Diseases
10:00	Stretch Receptors	Reflexes (SG)	Spasticity	Lesion Localization: Upper and Lower Motor Neurons (SG)	Pharmacology of Basal Ganglia Diseases
11:00	Spinal Reflexes		Epidemiology LT		Anatomy of Brain Stem and Cranial Nerves
12:00					
1:00	Gross Anatomy Eye and Orbit	Evidence Based Medicine	Epidemiology or IS LT	Epidemiology or IS LT	Epidemiology or IS LT
2:00		Mentor SG			
3:00					
4:00					

Modified: 10/22/01 ae

Module: Neurosciences and Behavioral Medicine

Week of:	2/4/02	2/5/02	2/6/02	2/7/02	2/8/02
8:00				7:30 Disorders of the Eye (SG)	
9:00	Anatomy of Brain Stem and Cranial Nerves	Pharmacology of Pain	Neuroanatomy of Vision	Location: BPEI	Pharmacology of the Eye
10:00	Pain, Touch, Temperature Receptors and Fiber Types	Pain	Retina	Central Vision	Local Anesthetics (Pharmacology)
11:00	Physiology of the Somatosensory System	(SG)	Physical Exam LT		General Anesthetics (Pharmacology)
12:00					
1:00	Gross Anatomy	Geriatrics			
2:00	Ear	Mentor SG	Clinical Skills or IS	Clinical Skills or IS	Clinical Skills or IS
3:00		LT			
4:00			LT	LT	LT

Modified: 10/23/01 ae

Module: Neurosciences and Behavioral Medicine

Week of: 2/11/02

	2/11/02	2/12/02	2/13/02	2/14/02	2/15/02
8:00	Mid-Module Examination				
9:00		Chemical Senses, Taste, Smell	Autonomic Nervous System	Temperature Regulation, Fever	Neuroanatomy of CNS Blood Supply, CSF
10:00	Auditory System	Hearing and Vestibular Disorders (SG)	Hypothalamus and Limbic Systems	Reticular Activating System Sleep, Circadian Rhythms	Brain Metabolism, Methods of Measure, Brain Imaging, MRS
11:00	Vestibular System		Epidemiology LT	Sleep Apnea	Stroke
12:00					
1:00	Gross Anatomy Neck	Screening and Prevention	Geriatrics or IS	Geriatrics or IS	Geriatrics or IS
