**Objective**

To participate in clinical research in the field of Cardiology. I have gained a great appreciation and interest in Cardiology during my medical school studies and would like to gain more experience in clinical research within this discipline. I am especially interested in this position because of my experience in genetic data analysis.

**Education**

- 2008-Present            University of Miami Miller School of Medicine            Miami, FL**
- Candidate for Doctorate of Medicine, Class of 2012
- 2005-2007            University of Southern California            Los Angeles, CA**
- Post-Baccalaureate Premedical Program
- June 2004            University of Colorado-Boulder            Boulder, CO**
- Bachelor of Arts, Major: Anthropology
  - Honors and Awards:
    - Graduated with *Summa Cum Laude* Honors
    - Thesis Title: *A reassessment of the Uniqueness of Human Culture*
    - Dean's List: Spring 2001 through Fall 2004
    - Phi Sigma Theta National Honors Society
    - The National Society of Collegiate Scholars

**Research**

- University of Southern California and Los Angeles County Medical Center  
Department of Emergency Medicine**
- Clinical Research Assistant            **2007-2008**  
Supervisor: Name and Title
    - Asthma Study: I was the project leader of an Asthma study that looks to determine a correlation between an Asthma patient's genotype for a therapeutic target receptor and his or her unique response to different forms of drug treatment (Study still in progress)
    - Venous Thromboemboli Study- This study involved genetic analysis of DVT and PE patients, with the primary objective of attempting to more efficiently and quickly diagnose patients that make them more predisposed to forming emboli. (Study still in progress)

**Publications**

- University of Southern California + Los Angeles County Medical Center  
Department of Emergency Medicine**
- Co-Author: Names "The Utility of Serial Peak Flow Measurements in the Acute Asthmatic Being Treated in the Emergency Department." *Annals of Emergency Medicine*. Volume 52, Issue 4, Supplement 1, October 2008.

**Medical  
Activities  
at UMMSM**

**Project Medishare**

**March 2009**

Medishare is a nonprofit student-run organization that concentrates on providing healthcare to the people of Haiti and re-establishing the healthcare infrastructure by securing funding, training healthcare workers and obtaining medical equipment.

**Volunteer**

- As a medical student I traveled to Haiti with Project Medishare in March of 2009. I provided healthcare screening, including full physical exams, diagnosis and prescription writing, through mobile clinics that served remote areas in the Central Plateau.

**UMMSM Academic Societies Program- Imhotep Society**

**2009 - 2010**

This program is a collaborative effort between students, faculty and administration to foster peer-teaching of clinical skills, enhance teamwork, and provide students with leadership, research, and community service opportunities .

**Event Coordinator: Newly Elected**

- As the Event Coordinator, I will plan events throughout the year that serve to strengthen the bond between society members, thus establishing comfortable learning environments for first and second year medical students.

**Department of Community Service (DOCS)**

**2008 - 2009**

DOCS is a student-run community outreach effort of the School of Medicine. This program offers students and faculty the opportunity to practice their clinical skills while providing screening service and health education to underserved South Florida communities.

**Station Manager of the Female Exam**

- As the station manager at the Marathon Health Fair, Little Haiti Health Fair, Florida Keys Health Fair and Jay Weiss Health Fair, I was in charge of running the Female Exam station. This includes organization of the students and doctors that participated at the station, packing for the station and making sure that all labs were ready to be processed.

**Work  
Experience**

**2007-2008**

**LAC and USC Medical Center**

**Los Angeles, CA**

**Clinical Research Assistant- Emergency Department**

**Supervisor:** Name, Title, Vice-Chair of Emergency Department, Chair of Research, Department of Emergency Medicine

- Responsibilities:
  - Enrollment of patients into studies
  - Data Collection
  - Data Analysis
  - Writing IRB applications and renewals
  - Training medical students to enroll patients
